Wine Cellar Cooling System
PLUG-IN TYPE

WINE CELLAR COOLING UNITS PLUG-IN TYPE

Thenow's plug-in type cooling unit is specially designed for smaller wine cabinet under 1.5 cubic meters, the product volume is only 7% of 1m³, which can be put into the cabinet very easily. Besides, plug-in type makes the installation becoming very simple and you don't need a licensed HVAC technician to install it for you, you may be able to install the unit yourself or an experienced handyman.

Compact plug-in design, easy to install.

Unique self-absorption drainage design.

38dB(A) quiet and efficient operation.

Intelligent control panel, support WIFI, APP.

Famous brand compressor, safe, stable and low energy consumption.

Traditional Chinese knot design radiator, better heat dissipation.

Technical Datas

Model	Unit	HSN-JC3
Cellar Size	m ³	0-1.5
Power	P	0.3
Power Supply	V/HZ	220/50
Cooling	KW	0.6
Air Flow	m ³ /h	100
Noise	dB (A)	38
Refrigerant	/	R134A
Controller	PC Full-touch smart control	
Temperature	°C	10-18°C, ±2°C
Humidity	°C	50~70%, ±5%
Total Power	KW	1
Size	L*W*H(mm)	560*425*300
